The patient carrying this document is dependent on CPAP (Continuous Positive Airway Pressure) treatment, because of respiratory disorders during sleep.

The CPAP-machine preferably has to be considered and thus carried as hand luggage when travelling by airplane, so to prevent damage to the machine. It does not contain oxygen or any other gas and will not be influenced by atmospheric pressure changes during flight. The CPAP-machine will not be operated by the patient during the flight.

Respiratory equipment including accessories are only to be used or handled by qualified medical staff and patients.
